Percentage: 77.4%

Ryan International School, Indore

Senior School Certificate

January 2019 – May 2020

Percentage: 89.4%

Projects

AI DRAWER | Jan 2023 – May 2023 | Bhopal, India | [GitHub](#)

A web platform enabling users to generate images, write creative content, and analyze data through AI.

- Developed a user-friendly web platform that democratizes access to artificial intelligence.
- Leveraged React.js for frontend development.
- Used Node.js for backend development.
- Integrated machine learning models using Python and libraries like TensorFlow and Scikit-learn.
- Designed and implemented intuitive user interfaces and streamlined user workflows.

MentalHood | August 2024 – May 2025 | Bhopal, India | [GitHub](#)

Developed "MentalHood," a mental health chatbot designed to provide accessible and empathetic support. Leveraging LLaMA-2, the model was fine-tuned using LoRA and QLoRA for efficient training and deployment. A user-friendly platform was created, prioritizing security and a calming user experience.

- Fine-tuned LLaMA-2 with LoRA and QLoRA for optimal performance and resource efficiency.
- Secure user authentication and chat history management using MongoDB and JWT.
- Intuitive front-end design focused on accessibility and a calming aesthetic.
- Trained on a curated mental health dataset, augmented with GPT-4 generated content.
